

ARTIST IN RESIDENCE – Report - Daniel Odija, writer /Polen/

My stay in the residence are mainly work as a writer and a lot of walks in the area. In exploring the Wachau helped me a lot materials and maps that I got into the room. Nature has always been very inspiring for me. Wachau Valley is one of the most beautiful places I have stayed. Long walks are an opportunity for reflection, which I used in my work as a writer.

Atelier I stayed assured me calm, which I need to work. I wrote a few short stories. Some of them were inspired by stories of people I have met in Krems. I also worked on my novel. Here I've had a lot more time for writing than in my house. I wish that this month passed so quickly.

I appreciate the AIR is that I could work in peace. People responsible for the AIR are very discreet, and I could count on their help. Thank you for giving me the opportunity to view contemporary art exhibitions for free. I also attend cultural events such as the Imago Dei at half price.

But the biggest advantage of this visit is friendship with artists who also participated with me in the AIR. Sensitive people I've met around the world. This can result in joint projects in the future.

It was a very inspiring month. Thank you.
